MASSIVE STOCK AVAILABLE

Bacterial Filtration Efficiency

Provides superior protection from potential infection by filtering droplets, pollen, dust and other air particulates.

3-Layer Protection

Outer Layer: sanitary-grade polypropylene adhesive proof cloth to block out droplets and moisture.

Middle Layer: high-efficiency filter melt spray cloth that acts as a filter layer.

Innermost Layer: soft fabric and absorbs moisture.

KN95 masks are designed to achieve a close facial fit and efficient filtration of airborne particles.

- ≥95% filtration rate
- Helps to protect against harmful particles
- Adjustable nose clip for a better fit
