

BATTERY POWERED BLOWERS THAT PACK A PUNCH

POWER+ BACKPACK BLOWER

POWER+ BLOWER

Big jobs need big power. That's what the EGO range of Power+ Blowers deliver. Having a variable speed function designed to keep you in control, selected models also feature a Turbo Boost mode that ranges up to 1020m³ of airflow per hour.

Combine this with the industry's most advanced EGO Power+ ARC Lithium 56V batteries and the fastest charger on the market, the leaves don't stand a chance.

There's more to these clever blowers than simply packing a punch. The smooth brushless motor significantly reduces vibration compared to its petrol-powered equivalents.

It's a lot quieter and greener too.
